

# Pride Run & Walk Palm Springs

Saturday, November 4, 2017

## Teams

To qualify to compete as a team, the team must have at least 5 team members. If a team is created, but does not qualify to compete, the team and its team members will still be recognized and associated in the race results.

To qualify for team results, the team must have at least 5 team members with valid results. The team's top 5 team members are used to compute the team's overall placement.

A team captain will be able to create a team as a part of registering for the event. After the team has been created, additional team members will be able to select and join the team as a part of registering for the event. Team captains will be notified by email anytime someone joins the team. An email is sent overnight to the team captain only on days where one or more team members have joined the team.
